

Welcome home!

Welcome to all the faithful students ready to accept the challenges of this new year. We look forward to guiding and leading you in discovering your full potential in the ancient art of unarmed combat. To all the new students, welcome to our family!

An exciting year with many diverse activities will keep you motivated to invest time and energy into training under our selected instructors. Activities include the notorious Berg-Gashuku, the popular JSKA National Karate Championships, a National Team selection for the 8th JSKA World Championships to be hosted in 2016, the International Development Championships partnered with JSKA Namibia and much more!

Our Academy has seen tremendous growth in especially our Open Classes at all the dojos. The idea of parents training at the same time as their kids but in separate classes has become very popular.

We are excited about the huge group of seniors to assist in teaching this year. We do believe in the value of teaching and will invest time into standardizing classes with an added personal flavour.

Please take note of the HOT-LINE to open communication directly to the JSKA/Academy Chief Instructor. Concerns and ideas will be appreciated - soon@JSKASouthAfrica.co.za

Academy vs JSKA South Africa

The Karate Academy of South Africa has been in existence since 1984. We have grown to a number of schools across southern Africa with a dedicated administration office in Centurion. We have also been members of JSKA World Federation under Keigo Abe sensei since 2002.

The Academy will remain the collective name of our schools in Pretoria and will be defined as a member of JSKA South Africa, our national organization.

This arrangement implies specific events like seminars, team trials and gradings to be Academy specific and JSKA South Africa will manage the national development championships, national championships, international liaison and Dan examinations.

In short: Karate Academy is a member of JSKA South Africa!

Academy Schools

Please visit our website karateacademy.co.za to find all the Academy schools and training times in Pretoria. Take note that afternoon and evening classes are offered across our city and feel free to training at any of our schools.

2015 Calendar

The 2015 Academy Calendar is published in this newsletter but take note of the following important events:

- Kiddies Grading - All current students in grade 1 this year will be tested for Pre-Yellow
- Kyu-grade seminars - This valuable training is offered specifically for grading training
- National team selection - A team to be prepared for the 2016 JSKA World Championships
- JSKA Nationals - Our annual national championships hosted in Pretoria
- Kyu-gradings - We will offer 2 gradings for juniors and three for adult students
- We have included a number of additional events in 2015 to specifically prepare our students for the 2016 JSKA World Championships hosted in Namibia.

Real Karate

Our schools will strive to improve the character of our students through teaching and training of the ancient art of weaponless combat. We will walk in sincerity, train in committed effort under the beautiful etiquette of our ancient art. Our school was founded on discipline exhibited in self-control.

We are proud of our dedicated instructors, we enjoy our committed students and appreciate the support of our parents. We pledge even greater commitment to provide facilities, educate instructors and manage an infrastructure with the sole purpose of improving our standard of students and teaching.
